

NATURA... solid color-thru phenolic

What a difference a core makes!

Looking for all the qualities of phenolic on your next project with a color-thru option?

Spec-Rite Designs offers a color-thru phenolic option for the DesignTec® Lockers, DesignRite® Partitions, DesignLine® Cabinets, Durable Designs® Furniture and custom design product lines. Color-thru phenolic provides the same great qualities of the standard black core phenolic: ease of maintenance, resistance to water, humidity, chemical corrosion and is virtually scratch and graffiti proof – while offering the choice of a color throughout material.

MATERIAL OVERVIEW

- One solid color throughout material
- Eco-friendly color selections
- Contributes to LEED® certification program
- Available in all product lines
- Moisture resistant
- Does not support bacterial growth
- Will not warp or delaminate
- Graffiti resistant
- Impact and scratch resistant

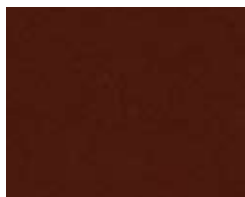

APPLICATIONS

- Standard lockers
- Custom lockers
- Partitions
- Casework
- Laboratory and work surface tops
- Custom furniture
